Soft Skills	Team Work, Creativity, Self Learning

TECHNICAL EXPERIENCE

Frontend Developer / AloPeyk (*Full – time*) 01/2025 — Present
Iran's second largest logistics platform under Golrang Holding, serving 15M+ users with on-demand delivery. Tehran, Iran

- Developed a customizable Angular UI Kit to streamline design consistency across company projects, reducing development time and improving maintainability.
- Leveraged Angular Elements to create framework-agnostic components, enabling seamless integration with React applications and enhancing cross-team collaboration.
- Implemented Storybook for documentation and wrote comprehensive unit tests using Jasmine, ensuring 100% test coverage and robust, reliable components.

Frontend Developer / OMPFinex (*Full – time*) 02/2023 — 12/2024
OMPFinex as an innovative cryptocurrency exchange platform with 3M+ monthly active users worldwide. Tehran, Iran

- Headed the platform, landing, and admin panel client-side projects over the past 9 months.
- Identified the flows in the code structure and planned a change to the Domain Driven Design (DDD) pattern.
- Hired and mentored interns and juniors to learn Angular/React principles and start working on real tasks.
- Crafted interactive landing pages using GSAP, Three.js, and pure CSS transitions, reducing page load time by 70%.
- Built a UI kit library on top of Ant Design, unifying projects duplicated styles and components.

Frontend Developer / Negah Bank (*Contract*) 12/2022 — 02/2023
Negah Bank is a well-known Tehran, Iran

- Directed the client-side & server-side development of a chat-based P2P money transfer PWA.
- Coordinated in a team of 5 developers to continue develop and maintain the project after the release of MVP.

Frontend Developer / Dotin (*Full – time*) 08/2020 — 12/2022
Dotin is a leading provider of SOA-based multichannel software products for banks and financial services institutions. Tehran, Iran

- Participated as a frontend team member on a Neo-Bank web app with 5M+ users including opening an online bank account, request debit cards, transfer money, request loans, etc.
- Managed tasks within Agile framework, cleared sprinted tasks, and controlled Jira workflows.
- Helped onboarding teammates and introduced code style.
- Promoted in the organization ladder system within the first year due to strong performance.

Frontend Developer / Promte (*Full – time*) 01/2019 — 07/2020
Promte was an agile software development startup with a website builder (like Wix) as it's main project, Tehran, Iran

- Gained experience in the Angular, React, and Ionic framework, and to working in an Agile team and using SCRUM methodologies by developing several projects for external clients.
- Used Restful APIs to communicate with the server and developed API driven application.

ACTIVITIES

Shared knowledge and expertise online
Expanded coding knowledge and explored different programming paradigms
Authored technical articles
